Uniting India: Statue of Unity

The Statue of Unity, popular as one of the few man-made objects visible from space as well as the tallest statue in the world is situated in the middle of the Narmada river guarded by the Satpura and the Vindhya mountain ranges in the state of Gujarat. The Statue of Unity is the Statue of Indian Independence Activist Shri Sardar Vallabhbhai Patel, overlooking Sardar Sarovar Dam which is also named after him.

Constructed in a record 33 months, the world's tallest statue stands at 182 metre (597 feet) as a memorial to the contributions of Sardar Vallabhbhai in the country's freedom struggle and the stellar role he played in unifying the country into a nation.

Why 182 meters?

While this statue is poised to be the tallest among the others, there is a reason why it stands at 182 metre. 182 represents, 182 constituencies in the Gujarat Legislative Assembly.

Sustainable structure

Did you know the statue is actually made from recycled materials? Since Sardar Patel was from a farmer’s family, the Loha campaign was started which appealed to the farmers of India to donate their used farm tools. The campaign received an overwhelming response as 169,000 lakh iron tools were collected. These tools were melted and used in the formation of the statue. Many NGOs and other social activists came forward to run this campaign which made it even more successful.

An architectural marvel

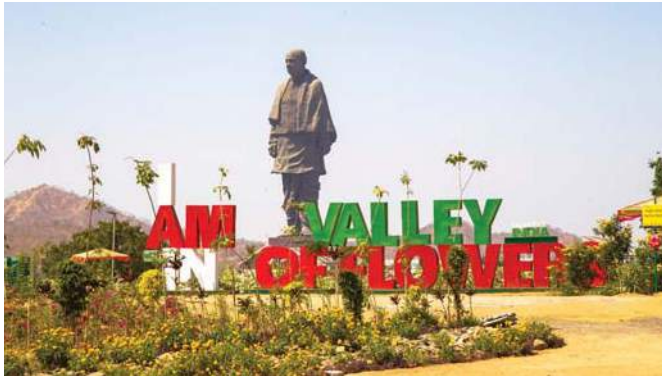

A staggering 6,500 tonnes of structural steel, 18,500 tonnes of reinforced steel, 210,000 tonnes of concrete and 1,700 tonnes of bronze cladding went into the making of the statue by an army of over 4,500 designers, architects, global consultants, engineers and workmen. Wind speed and earthquake history was studied and the statue was engineered with a triple-layered structure capable of withstanding a severe wind velocity of up to 180 kmph and resisting earthquakes measuring up to 6.5 Richter scales. The Statue of Unity stands on a star-shaped base that covers a hill. An escalator takes visitors along the bridge to the base of the statue. The statue has two vertical cores with elevators to reach the viewing gallery. The statue is divided into 5 zones out of which only the first three are accessible for visitors.

Seema Darshan - A gallant affair in Nadabet, Gujarat

The state of Gujarat has been sharing international border with the neighboring country of Pakistan. Fearless jawans of the BSF are guarding our western borders for decades, in the harsh weather of summer and winters. Nadabet is a village located in the Suigam Taluka of Banaskantha district in the northern part of Gujarat state. This is an important border post at Gujarat Frontier.

An Attari-Wagah border kind of experience was envisioned by Hon'ble Chief Minister of Gujarat Shri Vijay Bhai Rupani and implemented by Gujarat Tourism under his guidance and with support of BSF, in 2016 for tourists to witness the difficulties and challenges faced by the jawans, standing against all odds to protect Indian borders. The experience, known as Seema Darshan showcases the bravery of our soldiers guarding the border, marching with pride, and hoisting the tricolor flutter-

ing high. Seema Darshan at Nadabet, intends to be a platform, where the tourists/visitors can experience how the jawans perform their duty. It uplifts the spirit of patriotism and reassures the people that they are safe and remain protected by the relentless efforts of the jawans. A peek into the lives of BSF jawans, encourages them and assures them that their service is being appreciated and helps in morale boosting as the crowds salute and cheer them on. Nadabet Seema Darshan aims to receive international recognition by starting this programme.

Unlike Attari-Wagah border which is a border outpost across India-Pakistan and both countries perform a drill retreat, at Nadabet the retreat ceremony is performed only at India's side of the post. Other activities include fusion band performance, camel show and bird watching. Drums beat, and the

BSF jawans parade in a perfect rehearsed unison. It is indeed a moment of pride to see the Indian tricolor fluttering against the salt pans of the Rann with a beautiful evening sky in the background.

Visitors also have the opportunity to visit the border viewing point with the BSF jawans. Here they can interact with the jawans, who share their stories about their armed life on the border. Apart from this, there is a weapon exhibition, a photo gallery and a film show at the border viewing point developed by Tourism Corporation of Gujarat Limited (TCGL). Visitors also have the opportunity to see the life of villagers living in border villages.

So far, Seema Darshan has attracted over 2.5 lakh visitors in last 2 years. And this year, the BSF expects more visitors in the region.

Important visitor instructions before visiting Nadabet

- Government recognized Photo ID is a must for Border Post visit
- Only 600 visitors are allowed per day
